Zodiac Assault Boats

EXCLUSIVE

(A) Gain the ultimate in mission mobility with either one of these assault boats already in use by U.S. Navy SEALs and Special Forces around the world. Zodiac brings together the optimum in inflatable design and quality materials for outstanding performance on the water, easy transport and concealment capabilities. Each model is constructed of super-strong 1880 decitex fabric, a Hypalon/Neoprene coated material that is virtually punctureproof and resists UV rays, abrasion and oil spills. The boat is ready for action in 20 minutes using a foot pump. Intercommunicating valves with over-pressure release allow air or CO^2 inflation of five compartments from one valve. Close the valves of a punctured compartment for continued buoyancy. Roll-out fabric-covered aluminum floorboard adds rigidity to the craft, and center inflatable keel and two bottom-reinforced lower speed tubes provide quicker planing, shock absorbency and easier handling. Each includes grab lines, equipment securing rings, carrying handles, two bellows-type foot pumps, repair kit and carrying bags. Motors not included. Conform to specifications of the International Organization for Standardization. F470 is NSN# 1940-01-262-3993.

Bombard Commandos

(B) Count on the superior performance of the inflatable Bombard Commandos to give you portable, dependable water transport. Respond with confidence to emergency or law enforcement dispatches. Use it to go ashore from a larger boat, or for recreational purposes like skiing and fishing. The C3, C4 and C5 are built tough with thermobonded rubber-like 1100 decitex fabric which resists UV rays, abrasion and fuel spills. In about 20 minutes, the versatile Commando is ready to go. It gains rigidity from an easily-assembled sectional aluminum floor and a wooden keel which locates easily under the floor without tools. The keel forms a deep-V rigid hull, similar to hard-hulled boats, and gives you a higher, much smoother and splash-free ride. High-volume tubes make listing almost impossible and internal bulkheads equalize pressure between three tube compartments. In case one compartment is punctured, two will maintain buoyancy. Your motor fits securely on an aluminum support plate over the transom which resists bending forces of more than ½ ton. Includes foot pump, carry bags, repair kit, two 58" paddles and mooring line. Automatic Universal Air Pump sold below. Our Sospenders™ Flotation Vests are sold on page 120. See chart below for further specifications.

Sevylor Commando Kayak

(A) When your mission requires a silent, motorless approach, this tough, inflatable Kayak gives you that edge, with capabilities a motor-driven boat doesn't have. It's lightweight, easy on your back when carrying, and can go just about anywhere (including off-duty adventures!). When folded, its longest length is about three feet, so this two-person kayak can easily be stored in back of a jeep, in a plane, in another boat. Using a foot pump, it takes about 10 minutes to inflate the three compartments. Boston valves prevent accidental deflation. Made of PVC fabric with reinforced polyester grading, floor of Zodiac's heavier gauge PVC with an inflatable, yellow-to-olive drab reversible upper floor. Other features include two removable, adjustable seats for comfortable kneeling or sitting, bow and stern spray decks with nylon attaching cord, and a patch kit. Meets U.S. Coast Guard safety standards, complies with NMMA and DIN 7871. Made in Italy. Measures 12′×2′10″. **Olive Drab.** See the Sevylor accessories sold below for complete preparedness on your recreational or military missions. Auto inflating pump on page 3.

NEW Global Positioning Systems

(K) Instantly locate your position anywhere in the world, within 25 meters, using our Trimble three-channel Global Positioning System (GPS) receivers. Portable, lightweight GPS receivers have been used by the military and civilians, and anyone who needs to know exactly where they are. These receivers display position, velocity, time and navigational data on a 4-line LCD display. From a cold start, the GPS receivers provide a 2- or 3-dimensional fix in less than 2 minutes, can calculate a new position every second thereafter. No initialization is ever required. Operates in -20° to 140° F temperatures, 100% humidity. Splash-proof, mud-proof and dirt-proof, weighing in at only 3.5 pounds. You can take it anywhere. Its housing is a ruggedized plastic, impregnated with metal fibers to shield it in harsh or electrically-noisy environments. Each system includes an internal antenna, manual, soft carrying case, "AA" battery power pack, 8 "AA" batteries, and 12-volt adaptor. Made in the U.S.A. **Black.**

GORE-TEX® Fabric Drysuit — Kōkatat

(G) Combat the numbing coldness of freezing waters with this flexible, self-donning GORE-TEX® fabric drysuit. It's designed for comfortable, continuous wear on missions requiring infiltration via sub-surface swimming and small boat operations. Navy SEALs, Special Forces and transportation corps divers maintain swimming ability and freedom of movement without adding drag or weight to the mission. Infrared-treated for mission enhancement. Breathable PTFE GORE-TEX® laminate allows body moisture to escape while preventing water from getting inside. Features a necklace comfort ring, waterproof zipper, sleeve and leg pockets, attached boots with Velcro® brand hook and loop fastened ankle straps and trim-to-fit latex wrist and neck seals. We recommend our jumpsuit, sold below, be worn underneath. Specify **Woodland Camouflage or Black.** For sizing, see chart at right. Made in the U.S.A.

Thinsulate™ Jumpsuit

(H) For maximum insulation in cold water or single-layer warmth ashore, this lightweight jumpsuit is the barrier you need. It keeps you warm and comfortable, and even when wet, retains more of its insulation qualities than any other material tested. This particular Thinsulate® insulation is known as "Type B", especially designed for underwater use and temperatures of 50° to 65° F. Recommended for wear under our dry suit sold above, it's thin, breathable and virtually noncompressible providing warmth without bulk, and it won't change its buoyancy or insulation with depth. The outer material on this double-layer suit is water-resistant taffeta. For accurate sizing, see chart at right. Made in the U.S.A. Black.

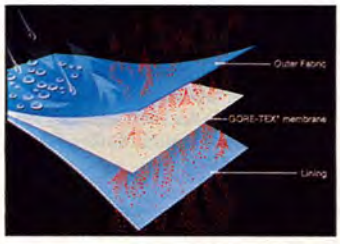
Put This Clothing to the Ultimate Test

Tough Fabric That Lasts. Your clothing gets put to the test day after day. GORE-TEX® fabric stands up to any condition you're likely to encounter. It's unaffected by perspiration, most petroleums, oil and lubricants as well as insect repellents. GORE-TEX® fabric won't split, break or peel, even in the coldest temperatures. And you can launder it again and again. It's tough and meant to stay that way.

GORE-TEX® Fabric What is it?



The GORE-TEX® membrane is the secret. This light, thin membrane can be laminated to a variety of fabrics. There are nine billion microscopic pores in every square inch of this extraordinary membrane. Each pore is 20,000 times smaller than a drop of water, yet 700 times larger than a molecule of water vapor. This allows perspiration vapor to escape while keeping water droplets out. In addition, the random pattern of the pores prevents the wind from penetrating.

Dear Randy,

"Very fine Gore-Tex items, unfortunately not available in Switzerland but in great demand by officers. The best catalog I know. Congratulations."

Bonny J. Christophe, Neuchatel, Switzerland

GORE-TEX® BEST DEFENSE™ Lightweight Rainsuit

From drenching downpours to northern freezes to cold and windy desert nights, this outerwear keeps you warm and dry. It's waterproof, windproof and breathable, and GORE-TEX® membrane is the reason why. This thin, miraculous layer is protected between a laminated Taslite® nylon outer shell and a hung taffeta liner. A full cut allows for a wide range of movement and, when necessary, additional clothing underneath. It saves on weight and bulk because each piece stuffs into its own pocket. Medium Long and Large Long available in Woodland Camouflage only. Made in U.S.A.

NEW German S.F. Combat Boots

LOWA USA

(F) GORE-TEX® fabric is the first-rate moisture barrier built into these boots. It's why elite German mountain troops, as well as U.S. Special Forces and S.W.A.T. teams, choose to wear them. This marvelous fabric keeps your feet dry and as a result, much more comfortable in any temperature. It keeps out the rain, snow, all the moisture, yet is fabricated finely enough to let perspiration escape. Along with the seamless GORE-TEX® fabric lining, there's moisture-drawing SYNTHEDRY, and "Klima-System", an insole and channel combination which transfers heat out of the cuff. The quality goes further with tough full-grain leather, a speed lacing system, removable insoles, gripping and self-cleaning Eiger outsoles, polycarbonate shank and a tongue-fast system with high bellows top. Made in Germany. Whole sizes: 7-13, regular width. **Black.**

U.S. CAVALRY

WORLD'S FINEST MILITARY AND ADVENTURE EQUIPMENT

From our President

Randy Acton, President
U.S. Cavalry, Inc.

Dear Customers,

These letters are always fun to write. I feel like I get to share all the good news that's going on around our firm with all of my friends. It's doubly enjoyable because each of you have had such a big part in our growth. You are our cheerleaders and many of you have expressed how much you enjoy knowing about our plans.

And so, as we usher in our 19th year we have lots of good news:

1) MATCH PRICE™ We have put on the gloves with the on-post big boys. Wherever possible, we've matched or beat the prices that our military customers see on posts, bases and ships. You've helped increase our volume on selected items to the point where MATCH PRICE™ is possible. Wherever you see the boxing glove you can benefit from the low, saving price. Please understand that not all of our items have reached that volume level. You will find some colors of the same items that do not allow us to use our new MATCH PRICE™. And, let's face it, there are a few items they sell that we can't beat them on yet, but...we are doing the best we can. I think you will see that we appreciate your devotion to our firm.

2) We have just opened our largest store to serve all of our friends in the Southeastern United States. We are located just outside of Fort Bragg at 6216 Yadkin Road in Fayetteville, North Carolina (formally Hill's Military Supply). All the products and services that you have enjoyed at our other stores and through our catalogs are available in this new store. Hello Fort Bragg, we love you and are excited about the opportunity we have to be of service!

3) Our catalog mailings are nearing five million copies a year. Lots of new friends are discovering U.S. Cavalry.

4) We are planning a great 20th anniversary celebration in 1993. The details are still sketchy but I'll let you know more in my August letter which begins our 1993 catalog year.

Well, that's about enough news for now. Besides, how can you place your order with me holding you up like this? Thank you for your continued confidence in our firm.

Sincerely,

Randy Acton

President

P.S. MATCH PRICE™ cannot be combined with any other discounts.

P.P.S. My Buyers said MATCH PRICE™ won't work! "They won't buy more, we'll just make less." But, let me tell you, in some cases you can buy two items marked MATCH PRICE™ for what we used to sell one - so order two or more, please! That will really show them and we can offer more MATCH PRICE™ products in future catalogs.

U.S. Cavalry Gift Certificate

A Great Gift Idea!

Having some difficulty in deciding exactly what to get your military, adventuresome or outdoor enthusiast friend or relative? We've got the solution to end your search. Give a U.S. Cavalry Gift Certificate. It's available in any denomination starting with a $25.00 minimum. You can be satisfied in knowing they can choose exactly what they need or want, and that we'll guarantee it—100%! When you order that gift certificate for your special person, please remember to include the amount, the name and address of the person receiving the certificate, and your name and address.

Gift Boxing Service

Let us save you another step on your shopping trip through our catalog with the final touch of gift wrapping. We'll surround your gift item in white paper and then place it in a bright red box, a color suitable for all occasions and for anyone on your list. We tie it all up with a decorative white band and a U.S. Cavalry-embossed gift tag is also included for your personalization. We offer this service for gifts measuring up to 15×10½×4½" or about the size of a pair of boots or a folded jacket. If ordering gifts for delivery to several addresses, be sure you tell us exactly what goes to whom! Add $4.95 to your order for each gift you desire us to box. See our order form for more details. Thank you and happy gift giving!

Thank you from the bottom of my heart,
I wanted to tell you how very happy I am with your orthotics. I haven't been able to walk, run or climb stairs for 3 years because of flat and crooked feet. I can now walk extended distances. I have passed the Army PT test which requires me to run for 2.5 miles. They are so comfortable that I forget they were there. After all the money the Army has spent on medication and foam rubber inserts, I am amazed that such a device is available for just a few dollars more. ***SFC C.H., Minnesota***

NEW Soft-Step™ Orthopedic Shoe Inserts EXCLUSIVE

For total comfort and relief of aching feet, legs and back, nothing can beat a completely form-fitting and supportive orthotic foot supports. Developed by Dr. Saul Goldston, a noted foot doctor, Soft-Step™ orthotic foot supports will realign your foot bones to a natural position and relieve stress, restore balance and prevent a wide range of foot problems. They'll change the way you feel almost immediately—guaranteed! No need for costly, specially-designed shoe inserts or doctor visits and treatment that may result from unattended foot problems. For a fraction of the cost, Soft-Steps™ make any pair of shoes comfortable and more stable when you're on your feet for hours. When your feet feel good, the rest of you will notice the difference. Let today be the beginning of the end for foot and back pain. Inserts are made of virtually indestructable thermopolymer with a dense, cushioning cover. Order your kit(s) today! We'll send your kit(s) with everything you need to know. You'll make your three-dimensional foot imprints in the dry molds and send them to Doctors' Foot Laboratories in a prepaid shipper with a lab fee of $99. It'll be worth every penny, you'll see. Lifetime warranty, money back guarantee!

Thank you from the bottom of my heart,
I wanted to tell you how very happy I am with your orthotics. I haven't been able to walk, run or climb stairs for 3 years because of flat and crooked feet. I can now walk extended distances. I have passed the Army PT test which requires me to run for 2.5 miles. They are so comfortable that I forget they were there. After all the money the Army has spent on medication and foam rubber inserts, I am amazed that such a device is available for just a few dollars more. ***SFC C.H., Minnesota***

Corcoran II™ Field Boots

Corcoran

(D) This field boot is a truly improved version of the original Corcoran which has been a standard in military footwear since 1941. Add these latest features and it can't be beat:

- Easily shined, extra soft water-resistant leather
- Self-cleaning, long-wearing Vibram® sole
- Sorbathane heel pad and lightweight EVA mid-sole for extra comfort
- Padded collar for comfort and protection from rock debris
- New government-specified blackened solid brass speed-lacing system

Sizes: 7-10½, 11, 12 and 13, D or EE width. Made in the U.S.A. **Black.**

T5575 MATCH PRICE **$85.00**

Shape Up™

(F) A few dabs of Shape Up™ gives an instant, waterproof, high-gloss military spit-shine. You'll be ready for inspection in minutes—instead of hours. Use to renew salt-stained boots and most other dull or worn leather and vinyl gear. Works great on scuffed Clarinos®, too! Non-toxic and non-flammable. Guaranteed not to crack or peel. Contains 1.6 fluid ozs. **Black.**

T5848 ..... **$3.95**

Lincoln Stain Wax

(G) Developed by the U.S.M.C. Best "spit-shine" wax available. Gives your boots the super "squared-away" look. Contains 2⅛ ozs. **Black.**

T2304 ..... **$2.95**

Dear Randy,
"Thanks for carrying Lincoln wax. It is all I used while in the Navy."
James Kendall, Roann, IN

Leather Luster

(H) Paint on a "spit-shine" patent leather look that outlasts the shine of regular shoe polish. Won't crack, peel, scuff or scratch, and you can easily wipe boots clean with a damp cloth. Contains 8 ozs. **Black.**

T2301 ..... **$9.95**

Heavy-Duty Boot Zippers

(J) Laces into all boots with 9, 10, 11 or 12 eyelets. Kit contains Scovil zippers with eyelets and laces. **Please specify number of eyelets** when ordering. Made in the U.S.A.

T2312 ..... **$10.95 pair**

Jungle Boots

★ OFFICIAL ISSUE ★

(E) This Jungle Boot is now a common sight in the military and is replacing the traditional olive drab jungle boot. It is *still* constructed with leather but combined with a tougher fabric of Cordura® nylon instead of canvas. Speed laces make lacing up faster and more convenient, an improved box toe gives you more toe room for thicker socks and a steel shank in sole provides extra support and strength. Non-clogging Panama-type soles. Whole sizes: 7-13, regular or wide widths. Made in U.S.A.

Paratrooper Boots

Corcoran

(A) Since 1941, the standard by which other boots have been designed and constructed. All leather uppers are water-resistant and ready to spit shine. Tempered steel shank for extra arch support, unique web ankle support, special rubber soles and rubber slant heels for comfortable walking in tough terrain. Built to Army specifications. When something has been around this long, there's a good reason—*Quality*. Sizes: 7-10½, 11, 12, 13, D or EE widths. Made in the U.S.A. **Black.**

T2269 MATCH PRICE **$69.00**

Desert Matterhorn Ranger Boots

EXCLUSIVE

(B) These boots are made to handle harsh conditions just like our black leather Matterhorns on page 13, but they're specifically designed for desert duty. Tan rough-out leather upper, cushioning collar, practical dual-lacing system, military specification steel shank arch, breathable Cambrelle® lining, cushioned insole for support and shock absorption, and slip-resistant lug sole. Measure 11" tall. Sizes: 7-11½, 12, 13, regular or wide widths. Made in the U.S.A. **Desert Tan.**

T4886 ..... **$119.95**

Desert Tanker Boots

EXCLUSIVE

(C) You don't have to give up tanker style for desert duty. Our Desert Tanker Boots are made just like our black leather tanker boots on page 14 but feature tan rough-out leather for desert camouflage. Double-wrap straps allow for quick and easy on/off action and provide a snug, supportive fit at your ankles. Reinforced stitching, storm welting, double sole and composition heel. Measure 11" tall. Sizes: 7-10½, 11, 12, 13, regular or wide widths. Made in the U.S.A. **Desert Tan.**

T2275 ..... **$99.95**

Redi-Shine Boots

(D) Leather uppers with full rubber sole and an exclusive double sole look. The toe and heel are permanently shined. Dirt can be washed off with mild soap and water on a cloth or sponge. Measure 10½" tall with 11 eyelets. Sizes: 7-10½, 11, 12, 13, regular or wide widths. Made in the U.S.A. **Black.**

T2278 ..... **$69.95**

Commercial Vietnam Jungle Boots

(E) Boots of lightweight, rugged construction that are made to G.I. specifications. Leather lowers for protection and cotton canvas with nylon webbing uppers keep you comfortably cooler than leather. Specify clog-resistant Panama soles (7-12 regular) or standard soles (7-13 regular or wide). No half sizes. Imported. Specify **Olive Drab or Black.**

T6211 Panama Sole ..... **$34.95** **T2273** Standard Sole **$34.95**

Double Lay-R™ Socks CoolMax

(F) Coolmax* socks are made for feet on the move. They're lightweight, soft, and feature an advanced channel fiber design that transports moisture away from the skin and out to the shoe for evaporation. Your feet stay dry and comfortable. Mid-calf socks made of 75% Du Pont polyester, 23% stretch nylon and 2% Lycra®. Sizes: M(9-11) or L(10-13). Specify **White, Black or Tan.** Made in the U.S.A.

T9319 ..... **$7.95**

*DuPont certification mark for fabrics.

Put Downs™ Trouser Stirrups

(G) Keep your trousers down inside your boots whether kneeling, sitting or standing. Flat clips won't bind in your boots. Adjustable elastic bands will fit different trouser lengths and flex as you move to keep trousers tucked in.
T5582 ..... **$5.95 pair**

Tactical Boot Blousers

(H) Tape cuts off your circulation and leaves a sticky mess on your pant legs. Traditional "rubber band" boot blousers are either so loose they don't hold your pants in place, or they're so tight they leave "dents" in your legs. Tactical Boot Blousers keep your pants neatly bloused in your boots all day—with no numbness, no mess, no dents. Comfortable 2" wide elastic strips wrap around your ankles with Velcro® brand hook and loop fasteners for a perfect fit and secure hold. **Black** on one side, **Woodland Camouflage** on the other.
T9245 ..... **2 Pair for $5.95**

Energy Track Insoles

(J) Although our feet have natural built-in shock absorbers, what meets them these days is totally unnatural. Energy Tracks simulate nature's design of shock-absorbing fat cells relieving tired feet, legs and back so you can feel better and have more energy all day. Sizes: S(under 10), M(10-10½) and L(11-13).
T8885 ..... **$16.95 pair**

"Peg Leg" Trouser Leg Forms

(K) Peg Legs expand the inside of your bloused fatigue legs to give a crisp, professional look. Pliable vinyl locks at correct interior size with Velcro® brand hook and loop fastener. One size fits all. For an overall, squared-away appearance, wear our "Peg Legs" with our Tactical Boot Blousers sold above. Made in the U.S.A. **Black.**
T1130 ..... **$9.95 pair**

911 Boot

ROCKY

(L) From the bottom up, our 911 Boots provide an all-around comfort you can live in. They're lightweight yet feature strong, durable leather and can-take-a-beating tough Cordura® nylon. You get flexible footing with slip-resistant Vibram® soles and cushioned ankles with a padded collar and tongue. Coolmax* lining with four-channel fibers speeds up evaporation keeping your feet dryer. Textra™ material absorbs moisture and provides traction between sock and boot. Sizes: 7-11½, 12, 13, regular or wide widths. Made in the U.S.A. **Black.**
T5254 ..... **$79.95**

NEW **Hi-Top Jungle Boots** EXCLUSIVE

(M) Have you ever thought that jungle boots are too short for your needs? If so, our boot is for you. Designed at our request, this jungle boot is as tall as the Corcoran Jump and the Ft. Lewis Go-Devil Boots. There's less chance your trouser legs will come untucked. They're easier on your shins than the low-top jungle boot. Made in the U.S.A. to government specifications. Leather lowers with air vents, lightweight canvas uppers, speedlaces, spike- and clog-resistant Panama soles, steel shanks. Whole sizes: 7-12, regular width only. Specify **Black or Olive Drab.**
T6366 ..... **$44.95**

NEW Stealth Lace Boot

(N) Our lightweight and flexible Stealth Lace Boots have an already-broken-in feeling for comfortable wear the first day you own them. Dual-density rubber Comfort Pockets and Sorbothane® heel pads provide traction and shock dispersion, Cambrelle® linings draw away moisture, and Cambrelle®-covered Poron® insoles cushion your feet. Outer constructed with Goodyear welt soles, Propex® nylon and leather. Whole and half sizes: 7-11½, 12, regular and wide widths. Made in the U.S.A. **Black.**

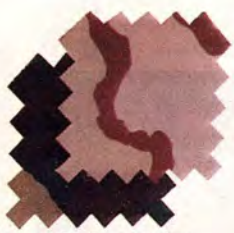
Genuine Military BDUs

The official BDU is more than just a sturdy set of clothing—it's an essential piece of field equipment. Worn by U.S. Army, Marine Corps and Air Force soldiers, BDUs are one of the most sought-after military uniforms in the world. The variety of camouflage designs and fabric content are essential for military safety and longer wear, but they're also popular among outdoorspeople and paintball gamers. All the features listed above are the same for each uniform. Unique fabric flaps prevent buttons from catching on wiring or foliage and inhibit I.R. detection—details that can save a life!

NYCO Battle Dress Uniforms

NYCO BDUs are solidly constructed with a comfortable, durable combination of 50% NYlon and 50% COtton. They're available in camouflage colors for duty or hunting in grassy/woodland areas, and in the desert, day and night. Choose from the uniforms listed on the facing page in Woodland, Night Desert or Three-color Day Desert camouflage.

Ripstop Battle Dress Uniforms



This lightweight fabric is a real lifesaver for the hot climate and season. Ripstop BDUs are constructed of cool, comfortable 100% cotton poplin. The ripstop feature helps protect the fabric from run-on ripping. It is available in Woodland or Three-color Day Desert camouflage. Choose from the uniforms listed on the facing page.

Lightweight Battle Dress Uniforms

***NEW!* Lightweight Woodland Camouflage BDUs, A U.S. Cavalry Exclusive!** The lightweight BDU is 38% lighter than the NYCO uniform, 11% lighter than the ripstop BDU. The best for warmer climates and seasons. Constructed of lighter weight NYlon and COtton, and available in Woodland or Three-color Day Desert camouflage. Choose from the uniforms listed on the facing page.

PASGT Body Armor ★OFFICIAL ISSUE★

(A) This vest is worth its weight in life-saving, multiple layers of Kevlar® aramid ballistic cloth. It's part of the U.S. Army PASGT system and is usually worn with the PASGT Kevlar® helmet sold on page 25. Protects against typical missile fragmentation from mines, grenades, mortar shells and artillery fire. It may decrease the severity of wounds from rifles and machine guns and can stop small arms fire from an angle or if the projectile has low velocity. Manufactured according to the requirements of MIL-B-44053. The outer shell features two nylon pockets, nylon webbing grenade hangers above each pocket, elastic webbing for flexibility during movement and shoulder pad fasteners. Inner and outer shells feature front left and right shells, back shell and front Velcro® brand hook and loop fastener flaps. Both shells and shoulder pads are constructed of water-repellent ballistic cloth. The ballistic inserts are water-repellent, installed in the collar and shoulder pads. Fillers are inserted between the outer and inner vest assemblies. Sizes: M(37-41", 23¾" long), L(41-45", 24¼" long) and XL(over 45", 24¾" long). Embroidered Name Tapes

(M) Please state your name, branch of service, color of letter thread and tape that you require. **Please Note:** We embroider name tapes in the official size lettering of each branch of the armed forces. Recent Army regulations (AR670-1) allow a choice when sewing on U.S. Army or name tapes. Our policy is to sew tapes 4½" wide, centered above the pocket, unless the customer's name is longer than 4½" (in that case it will be sewn pocket edge to pocket edge). We do not remove the stitching between characters. If you desire your tapes to be sewn pocket edge to pocket edge, you must state that on your order form. We do not charge extra to sew on tapes that we make. Double the price for tapes with first **and** last names. Our embroidered tapes are the finest—just ask your friends. Order in sets of six. Roomy Hang-Up Compartment

Pockets For Everything

B4 Plus™ Luggage

Inspired by the classic B4 bag used by G.I.s since before WWII. Like the G.I.s, you would see them everywhere—in the train stations, in the transport planes, aboard ships and in the back of jeeps. It was a bag that could take a beating. We've taken the familiar favorite and updated the construction, materials and hardware. We've added some handy features to give more versatility to the B4 Plus™ system. Removable and adjustable padded shoulder straps and full-length wraparound nylon zippers. Constructed of 1000 Denier® *Cordura® nylon. **Black.**

B4 Plus™ Travel Bag

(A) We've given the B4 Plus™ Travel Bag more length to accommodate longer, larger garments. The hanging main compartment measures 24×46×10″ and holds any style of hanger securely. Two outside pockets measure 19×15×13″. The zipper opens for access when bag is folded or hanging open. Reinforced bottom and top corners.

T5784 ..... **$129.95**

B4 Plus™ Travel Brief

(B) Now you can take along your office with this lightweight, easy-to-carry, easy-to-store travel brief. Main compartment measures 15×11×3″ and is divided with side slash pockets. Each will hold notebooks, calculators, pens, stationery and other items. Features four outside pockets: two flap-closed, Fastex®-secured bellows pockets on one side, a zipper-closed pocket and document pocket on the other side. Comfortable double handle comes with a snap-closed leather protector.

For Field or Office

Space Pens

fisher

Write in any position on glossy surfaces, upside down, through grease and even under water. Fisher Spacepens were developed for America's space program but they work great on earth, too. A gas-pressurized ink cartridge keeps the ink flowing smoothly at any writing angle. They won't leak or dry out. The estimated shelf life for the space pens is 100 years.

Write On America

fisher

(A) Your writing takes on a smooth, patriotic flair with our Write On America pen. It features a patented ball point with beveled ball socket rim for extra strength. In red, white and blue with black ink.

Land Navigation Texts I and II

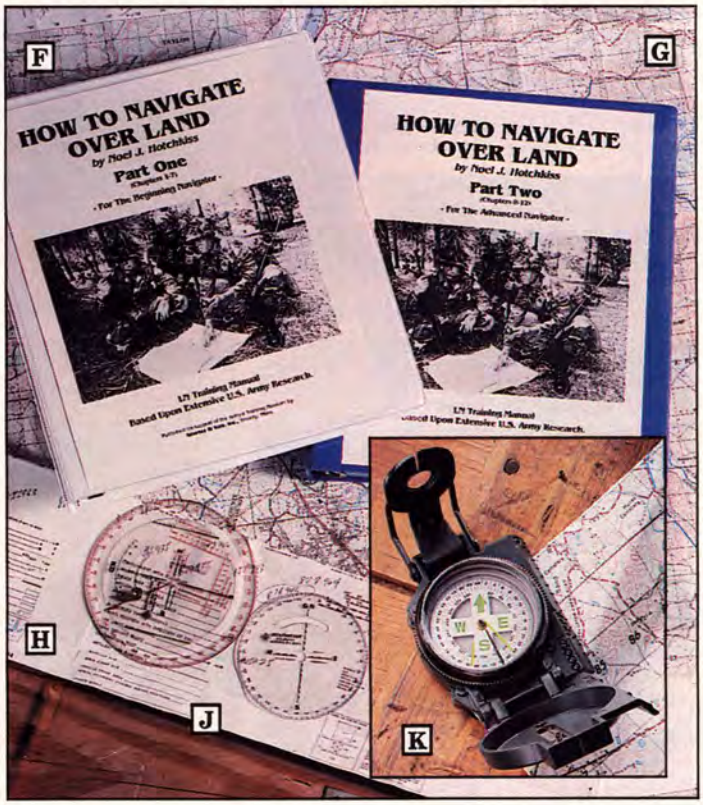
Get clear instructions for navigation on your own, anywhere with these texts based on an eight-year research program and written by a retired Army officer who served as a consultant to the Fort Benning Land Navigation team. Pages enclosed in three-ring binders. Supplements required, but not included, are the Declitractor® and SQT disk below.

(F) PART I: LAND NAVIGATION TEXT. Beginning navigators will learn to read a topographic map, recognize and categorize ground features, and determine direction, distance, and position, on the map and in the field. Also covers map reading, dead reckoning, and terrain referencing. Includes copy of a 1:50,000 scale military map sheet keyed to the text, map protractor and a Declitractor® duplicate set for various maps. 80 pages.

T6291 ..... **$69.95**

(G) PART II: LAND NAVIGATION TEXT. For the advanced navigator. Presents techniques needed for terrain analysis, map interpretation, primary movement by terrain association, mounted navigation, movement planning, navigation in different geographic and climatic regions, and how to use foreign and other maps, aerial photographs, and overlays. 116 pages.

T6292 ..... **$69.95**



Declitractor®

(H) Use the Declitractor® to make up for magnetic declination when navigating over land or sea with your map and compass. It eliminates the need for conversion between map and compass directional values. For use on military maps, it orients on grid north and contains coordinate scales for 1:25,000 and 1:50,000 scale maps. Read or plot magnetic azimuths, adjust transposer for use on a particular map and, with red print, you can read the scale under a red flashlight at night. It's clear plastic with an adjustable die-cut disc. Measures just under 5". For simultaneous magnetic and grid azimuth readings, see our insert disk below.

Mobiflex Shelters

EXCLUSIVE

*Mobile*Operational*Battle worthy*Instant*
*Flexible*Light proof, waterproof*EXercise tested*

Military-tested and approved Mobiflex shelters can be erected in about one minute without a single tool. These highly-mobile, time-saving systems are completely self-contained, frame-supported, preassembled dome structures. They've been field tested for the last five years in training events such as REFORGER, Jack Frost and Golden Eagle. They have been proven battle worthy in the Persian Gulf by the 24th Infantry, 101st Airborne and the 82nd Airborne. Perfect for hunting and extended camping trips. They reduce weight and storage volume. Each shelter provides maximum rain protection and weather insulation, passive chemical protection, withstands high winds and supports up to 10″ of wet snow. They reduce infrared signature and, with built-in blackout capabilities, a 100-watt light bulb cannot be seen when the outer skin is in place. The detachable fabric materials of the shelter include a lightweight cotton/polyester inner skin resistant to rain, wind, mildew, fire and ultraviolet degradation; and a durable ripstop nylon outer skin provides additional insulation. The frames are lightweight olive drab aircraft aluminum tubes interconnected with joints made of flexible engineered plastics. Design features include antenna and cable ports, rain-proof air vents, sewn-in vinyl-coated floors and hang ties. Includes a transport bag with compression straps. Accessory pack includes stakes, frame locking caps, guide ropes and repair kit. Choose from two sizes. Specifications are covered at right. Made in the U.S.A. **Woodland Camouflage.**

Dear Randy,
"When I ordered from your company before, I overpaid you, but your company was honest. They sent me a check for the amount I overpaid. Thank you. If I were to rate your company from a scale 1-10, it wouldn't be 10, it would be 100." *Scott D. Gerow, FPO AE 09645-2900*

Dear Randy,
"Your products are some of the best I've seen! My local PX and Army-Navy store does not sell some of the products at the quality price. Nothing compares to U.S. Cavalry."
Brad Narreau, Ludlow, MA

Dear Randy,
"I am purchasing these items in preparation for deployment to the gulf, just as I have alsways done for the past 15 years. Keep up the good work and thanks for the fine service.

Ultimate Ninja Weapon

(Q) The art of stealth and concealment goes one step further with this sword of many surprises. The 420 stainless steel full-tang tanto blade is just for starters. Give a little twist to the handguard and slip off a pair of throwing stars. A few tricks up the scabbard include two 8½" knives tucked away underneath the lace and a hand-to-hand battle tool and knife lodged in the tip cartridge. Insert the knife into the cartridge tip and place in scabbard for a spear. Also use the scabbard as a snorkel. As a final resort, the vial stored inside the handle is meant to hold your toxin for a fast and painless exit. Aluminum scabbard, anti-shock nylon handle with black fabric woven over a black dragon on ivory-colored plastic. All parts non-reflective black. Rockwell C of 48-50. Overall 34", blade 24½".

Shadow Daggers

Master knifemaker Gil Hibben has devoted over 30 years of his life to perfecting the fine art of custom knifemaking and design. Among the knives he has crafted are the Rambo III, used by Sylvester Stallone in *Rambo*, the Combo Throwers and the Shadow Daggers. Hibben is recognized the world over for his knives. His firsthand experience as an Alaskan Hunting Guide, a throwing knife expert and a 3rd degree black belt in Kenpo Karate have contributed to his success.

Gil Hibben's collectible Double and Silver Shadow designs are full-tang daggers of solid 420 stainless steel. The handles are wire-wrapped and feature gleaming, mirror-polished guards and skull-crusher pommels. Hibben's logo is inscribed on each blade and black leather sheath which features safety straps and boot/belt clips. Rockwell C 54-56.

(A) DOUBLE SHADOW. Clearly a design that leaves the beaten track of standard daggers. Formed with a split down the center creating an awesome double blade. Comes with its own specially-designed sheath. Overall 11¼", blade 6".
T3046 ..... **$84.95**

(B) SILVER SHADOW. The double-edged Silver Shadow includes a sheath with a tooled woven design. Overall 12½", blade 7½".
T9061 ..... **$54.95**

(C) *NEW!* DARK SHADOW. The Dark Shadow is the clandestine version of our Silver Shadow, also shown in this dagger collection. It's all black with a non-glare finish on the stainless steel full-tang blade. Hardwood handle is grooved for grip. Features a cast metal guard and pommel. Includes a black leather sheath with boot clip and safety snap closure. Rockwell C 52-54. Overall 12½", blade 7½".

Dear Randy,

"Thank you ever so much for your support during Operation Desert Storm. Unfortunately, your catalogs were a premium (more desirable than skin books). I sent for one just before being deployed to U.S. I again ordered another catalog from Ft. Hood. Well here I am in Korea and still no catalog. Could I trouble you for one more? I promise, I won't leave Korea till I receive it. A customer forever." *Warren Antropik, APO AP 96271*

Blackfoot Dagger

(N) Among collectible Indian knives, the honorable Blackfoot Dagger is the most rare. This replica was used in the films *Dances with Wolves* and *Young Riders*, and closely resembles the knife once carried by the bravest warriors of the North American Blackfoot tribe. It was said to have great healing power, just by being near the grizzly jawbone handle. Only after successful, demanding rituals, did the warriors' sons inherit this sacred talisman. It will surely make a proud, original American statement in your home or office. The handle of this realistic copy is made with Dura-bone™ plastic and resembles the jaw bone of the revered plains grizzly. A special processing of high carbon steel creates a high-luster replica of the native obsidian blade. Rockwell factor: 61. Overall 11", blade 6", tang 3½".

*T6957 ..... $89.95

Gatling Gun Replica

(P) Mini non-firing reproduction model of the famous 1883 military gun by Dr. Gatling. Scotland Yard Raincoat

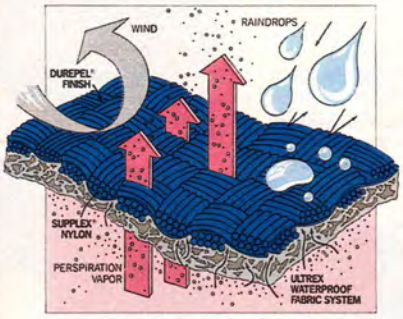
Walls Leading The Way Outdoors.

(A) A detective like Sherlock Holmes would have appreciated a raincoat like this on a cold, wet London night. The Ultrex® fabric is waterproof, windproof and breathable. The evidence is in the super-small micropores which block out wind and rain, but allow perspiration vapor to escape. Features a removable shoulder cape, handwarmer pockets over flap-closed pockets, front storm flap, drawstring waist and inside pocket. Shell of 100% Supplex® nylon with Ultrex® fabric, water-repellent Durepel® finish and a Caprolan® nylon lining. Sizes: S(36″), M(38-40″), L(42-44″), XL(46-48″) and XXL(50-52″). Made in the U.S.A. **Black.**

T9141 ..... **$139.95**



No-Soak Rain Suit

(B) Stay dry without getting steamed in our No-Soak Rain Suit. It's one invincible, lightweight layer against drenching showers, choppy waters (including salt water), and the wettest snow. The Ultrex® soft fabric has a coating of many micropores too small to let in water, or wind, yet large enough to let perspiration vapor out. It's waterproof, breathable, and cottony- soft 100% Supplex® nylon. Made with a water-repellent Durapel® finish that won't wash out, seam-sealed with thermofusion to prevent leakage and lined with 100% nylon taffeta. With extra layers underneath, you stay warmer because you're dryer. Quick drying, machine washable, resists stains and fading. Exceeds U.S. military requirements for a waterproof fabric. Sizes: Pants: S(28-30″), M(32-34″), L(36-38″) or XL(40-42″). Jacket: S(32-34″), M(38-40″), L(42-44″) or XL(44-46″). Made in the U.S.A. **Black.**

Gargoyles® Performance Eyewear

Gargoyles® clearly gives you great-looking sunglasses in a variety of attractive and practical colors. They not only look fantastic, they comfortably protect your eyes, too. The unique WrapBack™ design blocks out 83% more harmful ultraviolet rays and intruding side light than ordinary sunglasses. Gargoyles® sunglasses give you 210° of uninterrupted viewing and increased protection from wind and airborne irritants. The 100% optical quality lenses are molded from a polycarbonate formula so tough, they've withstood repeated firings of a .177 pellet traveling 290 miles per hour. That's why they're used by the U.S. government and why they pass for industrial safety glasses. Each comes with a soft vinyl carrying case that will fit inside our crushproof case sold below. Made in the U.S.A.

Harris Assault Vest

EXCLUSIVE

(F) The original load-bearing vest is back! The highly mission-capable one that was designed for Special Forces soldiers who carry more fighting equipment while needing it to be easily accessible. It was introduced to us by Lt. Col. Michael Harris, U.S. Army Special Forces, of the original vest design team. What's different? It has more features and carries much more than the current issue vest. The four slanted magazine pouches provide crucial easy access and hold eight magazines instead of six. Two smaller slanted side pockets hold 9mm magazines or folding knives. Two extra side utility pockets hold binoculars, smoke grenades, rations, more. Two smaller front pouches hold grenades. Carry your squad automatic weapon magazine or extra clothing in the A.L.I.C.E.-clipped rucksack in back, approximately 12×7×3". Features snap closures, Velcro® brand hook and loop fasteners, quick-release buckles, buckle-closed straps for fit adjustment, A.L.I.C.E. clip webbing all over and D-rings on padded shoulder straps. This vest was originally intended to support mounted infantry disembarking from vehicle or aircraft to engage in intense attacks. Constructed of 1000 Denier® Cordura® nylon. Fits up to 54" chest size. Specify **Woodland Camouflage or Black.** Made in the U.S.A. In this case, go for the better old design, it'll get you farther!

Red Dot Scopes

Micro DOT

Zero in with pinpoint accuracy with these adjustable power scopes. Combining the latest in fiber optic technology and state-of-the-art electronics, red dot scopes let you aim with confidence, even at dawn, dusk or in poor contrast conditions. Glowing red dot at center of duplex crosshairs is so minute it won't obscure your target, and dot brightness can be adjusted or turned off. Nitrogen-filled tube and coated optics amplify available light to provide crisp, clean sighting with paralex adjustment in yards and meters. One-piece aluminum tube is waterproof and lightweight but rugged to keep optics and electronics safe from damaging jolts. Each model includes a long-life lithium battery. **Black.**

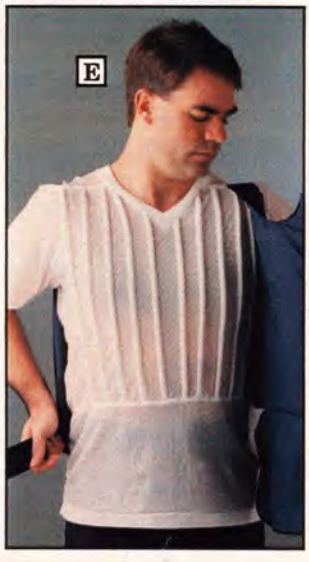
Protective Apparel Corporation of America Body Armor

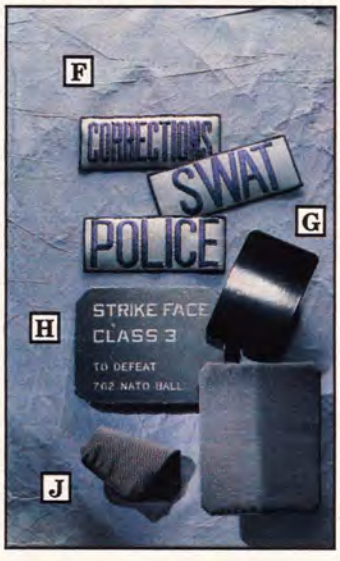
EXCLUSIVE

P.A.C.A. vests are worn by many U.S. federal agency and law enforcement personnel. They have the flexibility and fit you can't afford to go without on a high-threat job. They offer level IIIA ballistic protection against 9mm FMJ 124 gr. 1,450 fps and 44 mag. 240 gr. SWC (gas checked) 1,450 fps (and lesser threats) and are NIJ certified. P.A.C.A. warrants for five years that panels will prevent penetration of labeled projectiles at their designated velocities. Sizes: Specify regular or long length. S(34-37″), M(38-43″), L(43-46″), XL(46-48″) or XXL(49-52″). Made in the U.S.A. Attention exporters: If you would like other levels, please contact our Contract Sales Division for quantity discount prices. Phone 502-353-3110 or Fax 502-352-0266.

A Little About Kevlar® 129. Kevlar® is five times stronger than an equal weight of steel. Second generation Kevlar® 129 is even stronger and lighter in weight and more flexible, more conforming to your shape. When Kevlar® body armor is hit by a handgun bullet, struck fibers absorb and disperse the impact energy. Cannot be shipped outside the United States, except APO and FPO addresses, without State Department approval.

Now About Spectra Shield. Incredibly light and ultra-thin Spectra fiber is ten times stronger than steel and developed to combat the ammunition of today's newer, higher velocity handguns. Thousands of strands of unidirectional fibers layered in 0° and 90° angles are held in place by flexible resins, between two sheets of polyethylene film. Even at the toughest angles, bullets are stopped, energy is dispersed and impact is blunted.





MR. and MS. CONCEALMENT VESTS. Ballistic panels wrap toward back to ensure more side coverage than most vests. Features adjustable shoulder straps, elastic waist straps, shirt tails, 5×8″ trauma plate pocket and removable panels for laundering of poly/cotton cover.

Firefighter Statue

(J) Courageous firefighters risk their own lives every day to save others across our country. Mostly volunteers, they're always on call and ready on a moment's notice. The movie *Backdraft* recognized the risks and sacrifices these everyday heros make in real life. This statue is a symbolic representation of the caring firefighter with a young fan and his teddy bear. Solid, weighty Hydrocal with a baked-on, antique bronze finish and a lacquer coating. By Sculptor Michael Garman. Measures 13″.

★T6635 ..... **$49.95**

Police Glove

(K) Expect the unexpected during a pat-down and make your search a painless success. Our snug-fitting Police Gloves help protect you from sharp and harmful objects yet provide necessary finger dexterity. Constructed of long-wearing genuine leather. Imported. Bates Lites Low Quarters

(M) Each Low Quarters shoe weighs in at 11 ounces, half the weight of the old shoe, and they're more comfortable, too! These high-gloss leather oxfords feature breathable Cambrelle® linings, removable cushion innersoles and welted outersoles. Save on shoe polish! Sizes: 7-11½, 12, 13, medium and wide widths. Made in the U.S.A. **Black.**

T8977 ..... **$42.00**

NOMEX® Protective Underwear

(N) Wear the precautionary protection of NOMEX® underwear if your profession exposes you to fire dangers. The skin-saving flame-resistant fibers of this fabric help prevent or greatly reduce burn damage to your skin because it will char instead of melt. And, since the fiber is also acid-resistant, NOMEX® underwear protects workers in the chemical and refining industries, too. DuPont NOMEX® Aramid underwear is lightweight, soft and comfortable, and helps insulate you from the cold. The fibers retain their flame resistance for the life of the garment, even after repeated washing or dry cleaning. Specify size. Made in the U.S.A. **White.**

Monday—Friday 9AM—9PM EST
International Orders (502) 351-1164

This catalog is effective beginning January 27, 1992 and expires August 31, 1992.

Air Delivery Charges for Faster Service

We offer **UPS 2-Day, FEDERAL EXPRESS®, UPS 1-Day, FEDERAL EXPRESS® Priority One, EXPRESS AIR MAIL,** and **PARCEL AIRLIFT (PAL)** to APOs and FPOs. APOs without PAL added go space available (SAM), which are the rates shown under "Standard Service". For specific rates see the chart on the front of your order form.

International Rates

We ship worldwide. The customer assumes responsibility for any loss of shipments to countries that do not allow us to insure shipments to addresses within their borders. The customer pays all shipping, insurance and customs fees.

International Addresses—Although there is a fixed rate for each International Air and Surface Mail order, packages that are bulky and/or extra heavy, may require additional charges. We will either **(1)** bill your account for additional charges on credit card orders, **(2)** send a balance due notice, or **(3)** delete some items if paid with a money order.

UPS 2-Day and FEDERAL® Service

Delivery in two business days. **UPS** and **FEDERAL EXPRESS®** do not deliver to P.O. boxes or rural route addresses. Additional fees are required for **PRIORITY OVERNIGHT** or **EXPRESS MAIL USA** and **EXPRESS MAIL MILITARY Service™** APO and FPO shipments. For specific rates please refer to the chart on the front of your order form. For ***ALASKA and HAWAII addresses***—add an additional $10.00 to the basic express rate.

We cannot guarantee 2-day delivery of items requiring custom engraving, sewing, alteration or items that must be drop shipped from our suppliers. We will ship your order by the 2-day delivery service that you specify as soon as the custom work is completed. We will ship immediately available merchandise via the 2-day delivery service that you specify. When the rest of the items in your order become available, we will ship them via **UPS** or **PARCEL POST** at no charge to you.

Rates Apply on Packages up to 20 lbs. Only

Our freight charges are based on packages up to 20 lbs. Extra charges are required on larger and/or heavier packages. Please call our Customer Service Department (Weekdays 9:00AM—9:00PM EST) for further information at 1-800-333-5102.

Gift Boxing Service

Your gift is packaged in white paper inside a bright red box with a decorative white band. A U.S. Cavalry-embossed gift tag is included for your personalization. Box sizes range from 10¼×10½×6½" to 15×10½×4½", the largest holding a pair of boots or a jacket-sized item. If you are ordering gifts for delivery to several addresses, let us know what goes where and to whom. We will print a greeting (specified by you) on the tag. Our gift boxing service is $4.95 per box.

Returning Damaged Merchandise

If merchandise received is damaged, please keep the original box and packing material and refer to the back of your packing slip. If you still have questions, call our Customer Service Department (Weekdays 9:00AM—9:00PM EST) at 1-800-333-5102.

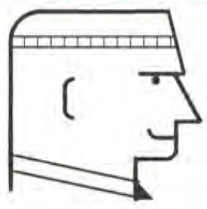
Finding Your Hat Size

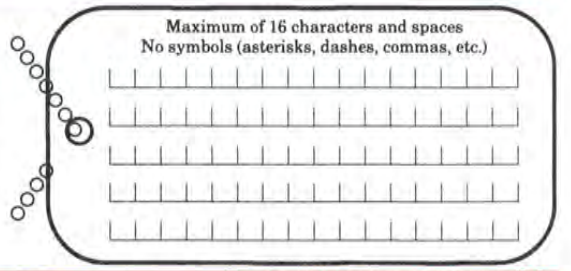
Place a tape measure around your head. The number of inches is converted into two types of sizes. Check each hat you order for the type of size required, then state on your order form the size obtained from the chart.



Head Inches	Hat Size
20⅜"	6½
20¾"	6⅝
21⅛"	6¾
21½"	6⅞
22"	7
22⅜"	7⅛
22¾"	7¼
23⅛"	7⅜
23½"	7½"
24"	7⅝

Ordering Dog Tags

Enter your order for dog tags on the front of your order form. Use the spaces provided to show us exactly how you want your tags to read. Only 16 characters and spaces are possible per line. Official tags must have the information requested on page 27.



Glove Sizing Chart

Using a measuring tape, measure around the palm of your hand at the widest point not including your thumb.
